

# Matthew Weinert

**Address** 7100 Altis Way, Orlando, Florida, 32836

**Phone** (386) 275-4497

**E-mail** matthewraymondweinert@gmail.com

## Skills

---

- **Software:** C, C++, Java, Python, MySQL, PHP, Javascript, NodeJS, HTML, CSS, XML, Arduino

## Work History

---

**07/2019- Current**

### Software Engineer Intern

*Dignitas Technologies, Orlando, FL*

My daily responsibilities and duties were to apply and develop software in an agile workflow. The main stack used was Java, CSS and XML. We utilized proprietary software for tracking tasks, which typically consisted of fixing bugs, creating new software or executing test procedures. The software required both client side and server-side programming. Server side was handled through Squirrel SQL and client-side was executed through localhost.

## Education

---

**Current - 2021**

### Bachelor of Science, University of Central Florida

*Computer Engineering, Orlando, FL*

**2013**

### High School Diploma, Spruce Creek High School

*Port Orange, FL*

## Software

---

### Contact Manager Web App

- Collectively designed, planned and created a Web app that acts as a contact manager.
- Utilized the LAMP web developer stack, which consists of Linux, Apache, MySQL and PHP, to create the whole front end, backend and API.
- The planning and design process consisted of an Agile style development with the aide of a UML, Gantt chart and an ERD to properly communicate the goals and stay on schedule with the group.
